Pleasure-Way

LEXOR TS

THE PLEASURE-WAY LEGACY

For more than forty years, Pleasure-Way Industries has been guided by one defining goal: to build motorhomes of lasting quality and craftsmanship. Family-owned and proudly Canadian since 1986, we continue to handcraft each motorhome with care, precision, and a steadfast commitment to excellence.

We do not mass produce. Every coach is built one at a time by skilled artisans who take pride in their work and uphold the standards set by our founder, Merv Rumpel. This dedication has earned us one of the lowest warranty claim rates in the RV industry and the trust of owners across North America.

We remain true to our roots while embracing innovation that enhances reliability, comfort, and performance. With each new model, we carry forward our tradition of craftsmanship, creating motorhomes built to inspire confidence, built to endure, and built to last.

Gray Water Tank Capacity:	20 US Gal / 75 L
Black Water Tank Capacity:	12 US Gal / 45 L
Towing Capacity:	2,150 lbs / 975 kg

HOW IT'S MADE

Most RVs are built on assembly lines, with the interiors and cabinetry stapled together in a menagerie of paneling and wooden sticks. The walls and roof are typically installed last and many of these recreational vehicles feature a meager 12-month warranty. At Pleasure-Way, we are proud to say that we build our motorhomes to last, and that our manufacturing process reflects this.

PAINTSHOP

Every component, including fiberglass running boards, is hand-sanded, primed, painted, and clear-coated for a flawless finish. Even smaller parts, like vents and hatches, are painted to match the exterior, showcasing our meticulous attention to detail. Our commitment to quality and safety sets Pleasure-Way motorhomes apart from the competition.

CARPENTRY

At Pleasure-Way, every motorhome begins with genuine, hands-on craftsmanship. In our on-site mill shop, experienced carpenters create each cabinet, drawer, and interior component completely in-house. Built with care and precision, these components contribute to the strength and long-term reliability our motorhomes are known for.

ELECTRICAL

At Pleasure-Way, our meticulous electrical installation process is tailored for optimal performance and reliability. It begins with careful planning of wiring layouts, followed by the installation of the main wiring harness, circuit breakers, outlets, and premium lighting fixtures selected for durability and aesthetics. After installation, we conduct thorough testing to verify connections and ensure proper voltage, guaranteeing a dependable electrical system that enhances the Pleasure-Way experience.

INSTALLERS

Each motorhome is crafted by a single “installer” who is responsible for building the Pleasure-Way unit. While the installer works, other team members (such as electrical and plumbing) assist as needed, but the coach stays in one place rather than moving down a production line. This process ensures a high-quality product, as our installers can focus entirely on their coach.

PLUMBING

Our plumbing installation process starts with detailed planning for water supply and drainage systems tailored to our motorhomes. This includes the careful installation of the fresh water tank and connections to high-quality fixtures, along with the gray and black water tanks for effective waste management. After installation, we conduct testing to ensure all connections are leak-free and the system operates smoothly.

UPHOLSTRY

Our sofa and ottoman cushions feature a medium-density foam base topped with three inches of viscoelastic memory foam and finished with dacron, providing comfort and eliminating seam discomfort when converting to a bed. Upholstery is then wrapped in stylish UltraLeather. This luxurious fabric is durable, stain-resistant, pet-friendly, and easy to clean.

FINISHING

This team transforms a completed build into a refined, polished motorhome. They install cabinet and bathroom doors with fitted hinges, apply silicone to the floors and Corian surfaces, set the stovetop, and mount valences. They also install closet rods, hooks, latches, drawers, screens, and the covers that hide electrical and plumbing components. Even essentials like the fire extinguisher are placed with care.

DETAILING

Our Detailing team prepares each motorhome for the final stages of the build. They begin with an interior pre-clean that removes dust and debris so the Finishing department can apply silicone to the vinyl flooring and Corian surfaces without contamination. The unit then moves through Washbay for a full exterior wash, followed by careful decal installation. The department completes its work with an interior final clean that brings every surface to a showroom-ready shine.

QUALITY CONTROL

The most important stages in our entire manufacturing process. Our motorhomes goes through a detailed inspection that covers its exterior, interior, and all major systems. Each check is performed with confirming the level of craftsmanship our owners expect from a Pleasure-Way.

The exterior inspection begins with a full review of the chassis and all mounted components. QC checks the condition of chassis seam seals, examines each window for flaws, and inspects the undercarriage for proper routing, fastening, and protection. They move to the roof to verify seal integrity, solar panel mounting, air conditioner installation, and awning operation.

Inside, the team performs an equally thorough evaluation. Every electrical component is powered on, soft-close hardware is checked. Cabinets, countertops, and mounted components are level and properly aligned. Lights, outlets, USB ports, plumbing fixtures, screens, and latches are all inspected for both function and finish. QC also looks closely for visual imperfections or anything that does not meet our standards for fit and finish.

If an issue is found at any point, the motorhome is returned directly to the department responsible. The issue is corrected, and then QC re-checks the same area to confirm the fix. No unit moves forward until the team is satisfied that every detail is correct. This is why we have one of the lowest manufacturer defect rates in the industry!

LUXURY COMES **STANDARD**

At Pleasure-Way, our commitment to quality is unwavering. Every motorhome we build reflects a legacy of craftsmanship, precision, and pride. To achieve this, we partner only with trusted suppliers who share our pursuit of excellence and reliability. The result is a motorhome that stands apart, built with components selected not for their popularity, but for their proven performance and long-term value.

CORIAN® SOLID SURFACES

This impact resistant material is non-porous, stain-resistant, and easy to clean. Rest assured, Corian® keeps its good looks and easily survives daily wear and tear.

TRUMA VARIOHEAT FURNACE

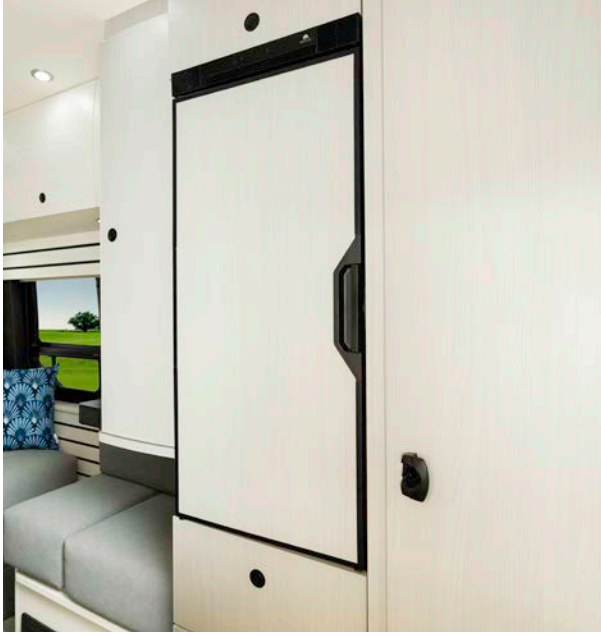
Three automatic output levels, intelligent fan control, near-silent operation, high airflow, and three stage burner system combine to heat your coach quickly and efficiently.

XANTREX™ 3000 WATT INVERTER/CHARGER

Provides power to the TV, microwave, induction stove, and most 120 VAC receptacles when you're not plugged into shore power or running the generator.

ONAN® QG 2800i 2.8 KW GENERATOR

Offering greatly reduced noise and vibration levels, improved fuel efficiency, and better performance, this propane generator is a reliable, and remarkably quiet power source.



TRUMA AQUAGO® COMFORT PLUS WATER HEATER

The 60k BTU stepless burner, recirculating waterline, and mixing vessel deliver hot water on demand, at even temperatures.

10" TOUCHSCREEN CONTROL PANELS

The dual 10-inch touchscreens offer centralized access to lighting, climate, and power management, combining advanced technology with the simplicity of an easy-to-navigate interface.

12V COMPRESSOR FRIDGE

The 12v compressor refrigerator delivers exceptional cooling efficiency with minimal power draw. Engineered for durability and quiet performance, it keeps food chilled in all climates.

ECO-ION 600Ah LITHIUM BATTERIES

The high-performing, fast-charging and maintenance-free coach batteries offer superior power storage for hassle-free use of your favorite devices.

LAGUN TABLE MOUNT SYSTEM

A cantilevered support arm offers adjustable height, eliminates the typical center post, and swivels 360° at both the table top and support arm.

STAINLESS STEEL GALLEY SINK

The large 13"x17"x6 ¾ galley sink is complemented by a high-arc faucet with pull-out sprayer. This combination makes filling and cleaning large pots much easier.

INCLUDED FEATURES

REAR DOOR ROLL-UP SCREEN
If you love fresh air and open space, you'll appreciate our precision-fitted rear roll-up screen. The heavy-duty nylon canvas and fine mesh keep insects out while allowing a clear view and steady airflow. A double-zipper system provides easy access to the under-sofa storage, and the flame-resistant screen rolls up neatly and tethers out of sight when not in use.

SIDE DOOR ROLL-UP SCREEN
Enjoy the beauty of the outdoors while prepping a meal without the worry of insects. A unique magnetic closure system allows for easy access in and out without the need to zip the door open and closed. The super-fine mesh screen is constructed from heavy-duty, flame-resistant nylon canvas, resulting in a long-lasting, reliable feature. When the screen is not needed it can be rolled up and secured out of the way.

GO POWER!® SOLAR PACKAGE
Extend your off-grid adventures with the Go Power!® Solar Package. This system provides clean, reliable energy to recharge your coach batteries and power your 12-volt and 120-volt systems through the inverter. Enjoy greater freedom and flexibility without relying on shore power or running the generator.

LEXOR TS

RAM PROMASTER 3500

The 2026 Lexor TS combines a nimble Ram ProMaster chassis with the build quality Pleasure-Way is known for. Its compact form makes it easy to navigate tight roads and crowded areas while still delivering a confident, enjoyable drive.

Inside, the Lexor TS showcases refined craftsmanship with hand-built cabinetry, Ultraleather upholstery, Corian surfaces, and soft-touch walls. The rear lounge transitions into a generous sleeping space, and the portable induction cooktop offers modern versatility. It's a compact motorhome built with long-term comfort and durability in mind.

LAGUN TABLE MOUNT SYSTEM

Enjoy greater flexibility in how you dine, work, or relax. Multiple Lagun® table mount locations allow you to reposition your table throughout the coach, creating convenient setups for meals, lounging, or productivity.

POWER SOFA

Switch effortlessly between lounge and sleep mode with the touch of a button. The power sofa converts into a spacious 73" x 76" queen bed, offering exceptional comfort for both day and night use.

FULLY EQUIPT GALLEY

A large galley with Corian® countertop and sink cover, undermount stainless steel sink, portable induction stove, fridge/freezer, microwave, and generous storage throughout.

THE PLEASURE-WAY LIFE

Traveling in a Pleasure-Way motorhome offers unique advantages over traditional RVing in larger Class A, Class C, or towable trailers. Whether you're a seasoned full-timer or just beginning your RV journey, something has drawn you to the Pleasure-Way lifestyle. Along the way, you'll create lasting memories, forge new friendships, and collect stories worth sharing.

PLEASURE-WAY
PATHFINDER

The Pleasure-Way Pathfinders are a group of passionate owners and ambassadors who share their real-life experiences with our motorhomes. They help others discover what it's like to travel, live, and explore in a Pleasure-Way by sharing stories, photos, and honest insights from the road. Each Pathfinder represents the Pleasure-Way community's spirit of adventure, craftsmanship, and connection. They offer an authentic look at the lifestyle that comes with owning a handcrafted motorhome.

OWNER'S CLUBS

The Pleasure-Way owners' clubs are proudly operated by fellow owners and enthusiasts just like you who share a deep passion for RVing. We believe that meeting new friends and sharing adventures is an important part of the Pleasure-Way experience. A lovely group of owners have created East and West based group who actively participate in rallies and group meet-ups!

RAM PROMASTER 3500 CHASSIS

The Ram ProMaster 3500 chassis offers smooth handling, front-wheel-drive traction, and a tight turning radius that makes the Lexor TS easy to drive almost anywhere. Its low height and practical design create a comfortable, confident driving experience on both highways and city streets.

10.1" UCONNECT®5 MULTIMEDIA SYSTEM

Keep in touch, wherever the job takes you with the Uconnect® 5 multimedia system. Equipped with dual-phone connectivity and wireless Android Auto and Apple Carplay to offer quick and easy access.

- Bluetooth audio streaming
- Navigation
- Hands-free calling
- Android Auto + Apple CarPlay
- FM/AM/SiriusXM
- Smartwatch Extension
- Dual USB Ports
- Voice Command
- Alexa Built-In

PERFORMANCE & HANDLING

Designed for all kinds of environments. Its front-wheel-drive layout improves traction and supports a low, stable floor, while the tight turning radius makes maneuvering simple. The 3.6L V6 engine and smooth automatic transmission provide reliable, consistent performance, and the responsive steering and comfortable suspension create a relaxed ride on the highway.

SAFETY FEATURES

Whether you're driving or sitting in the passenger seat, feel confident with the latest safety and innovation from Ram.

- Multi-airbag Protection
- Electronic Roll Mitigation
- Forward Collision Warning
- Crosswind Assist
- Electronic Stability Control
- All-Speed Traction Control
- Hill Start Assist
- Brake Assist
- Anti-Lock Brake System
- Blind-Spot Monitoring
- ParkView® Rear Back-Up Camera
- Tire Pressure Monitoring System
- Drowsy Driver Detection
- Pedestrian/Cyclist Emergecy Breaking
- Tire Pressure Monitoring
- Multi-Collision Braking
- Traffic Sign Recognition
- Speed Sensitive Power-Locks

ADDITIONAL FEATURES

- Remote keyless entry
- Rear view camera system
- Swivel seats
- Adaptive cruise control

RAM CONNECT

With Ram Connect, you can start your vehicle remotely, get help with flat tires and other minor roadside incidents through Roadside Assistance Call, receive alerts when your vehicle's theft alarm is triggered, and do much more.

- Remote Vehicle Operations
- Safety & Security Services
- Navigation & Assistance

RAM WARRANTY

Basic Limited Warranty:
- 3 years or
- 36,000 miles / 60,000 kms

Powertrain Limited Warranty:
- 10 years or
- 100,000 miles / 160,000 kms

PLEASE NOTE

Some Ram features listed may not be available on all chassis. Please see your Pleasure-Way dealer for complete details.

WARRANTY

All Pleasure-Way motorhomes are backed by our Five Year Freedom Warranty. Pleasure-Way Industries Ltd. warranties the specified new Pleasure-Way Motorhome free from defects in material and craftsmanship, on portions manufactured by Pleasure-Way Industries Ltd. under normal use and service.

Coverage - 5 years or 60,000 miles / 100,000 kms (limited warranty)

PLEASURE-WAY PERSONAL ASSISTANT

We understand that it takes time to get completely familiarized with your new motorhome and all of its features. For this reason, you will be designated your very own Pleasure-Way Personal Assistant for the first 90 days of ownership!

Your P.A. is a specialized and knowledgeable member of the Pleasure-Way team who works right here in our manufacturing facility. Upon receiving the warranty registration of your new motorhome, your P.A. will provide you with their contact information. You will now have access to your Pleasure-Way P.A. six days a week, via a dedicated, toll-free phone number or email.

Your Pleasure-Way P.A. will be there to assist you in all matters pertaining to the operation of your Pleasure-Way motorhome. After your 90 day period expires, you will have all the confidence and knowledge to enjoy your new Pleasure-Way for years to come!
